

THE HAYTI HERALD.

VOL. 3.

HAYTI, MISSOURI, THURSDAY, SEPTEMBER 21, 1911.

NO. 46.

MUST SINNERS BE SAVED?

"They that be whole need not a physician, but they that are sick."
"For I am not come to call the righteous, but sinners to repentance."
—Matt. 9:12-13.

"Fear them not therefore: For there is nothing covered that shall not be revealed."
—Matt. 10:26.

But a new religion is to be preached in Colton. The words of the Master are to be denied.

Sinners will take notice that they are not invited to the churches. That is the only inference to be placed upon the action of three professed ministers of the gospel.

Friday morning as usual the Chronicle editor telephoned to the preachers for the Sunday announcements, Rev. C. J. Banks of the Baptist church courteously responded. D. B. Loofbourrow said he would call at the office. He came accompanied by E. L. B. McClellan and Rev. Banks. Mr. Loofbourrow stated that they came to serve notice on the Chronicle that as long as it printed the matter furnished by the Equality Club the preachers would not allow their church notices and announcements to appear in the paper. Mr. McClellan elaborated on the pronouncement while the Rev. Banks looked on. The Chronicle editor was also informed that nothing would be said about the matter publicly. [That was real nice of them.]

Here is a religion new to the freedom of America.

Here is the tyranny that raised Martin Luther to immortal glory and caused the Reformation.

Preaching that the members of the Equality Club are sinners come not to repentance, that they are in the darkness of error and sinfulness, that they do not know the saving grace of the Gospel of Jesus Christ, these men claiming to be bearers of the Word serve notice on readers of the Chronicle, and especially those of the Equality Club, that sinners are not wanted in the churches. This dictum of the preachers say to them: "We are holier than thou and our holy places shall not be contaminated by sin. Avaunt! Scatt! Only
(Continued on page four).

THAT NEW ROAD.

We are informed, upon reliable authority, that in opening the new road at the White cemetery, the law was not complied with in any particular instance, but that it was more or less a random order. This road is one of the most important leading to Hayti, and the people of Hayti are certainly deserving of more consideration than to be treated this way, and, being accustomed to have to go into court and fight for their rights, they took immediate steps in this event to keep the ball rolling. Money has already been raised to attend to this case, but of course it is hoped that heroic legal action shall not be necessary. The thing to do is to re-open this old road until the new road can be placed in the proper condition for travel, or at least until the fall crops are moved. The people of Hayti are fair, but they have some rights that should be respected. No one objects to the road being changed to run on section lines, but the law very clearly sets out how such changes may be made, and that a new road must be as good or better than the old road and that this fact must be settled before the new road is opened. It is not a question of the roads running on certain lines nor of distance, but a question of the passability of the road—that is the whole thing in a nut shell, and that is the law. Some work is now being done on this road but it will require at least \$1,500, it is claimed, to put this new road in good condition, and it is said that cannot possibly be done this fall. This being true, the only right thing to do is to open the old road until such time as the new road can be made a practicable public highway.

The Postmaster General has issued an order granting all postmasters a vacation of five days that they may attend the Annual Convention of Postmasters at St. Louis, Sept. 21, 22 and 23, 1911. This includes postmasters of every class. Of course the offices will not be closed.

DENNIS STUBBS DEAD.

Dennis C. Stubbs, almost the last of the old "landmarks" and real pioneers of Pemiscot county, after a lingering illness of many months, passed away in this city last Thursday at 9 p. m.

Funeral services were conducted at the Methodist church at 12:30 p. m. Friday, after which the remains were laid to rest in Dry Bayou cemetery.

Mr. Stubbs was 74 years old, and up to a few years ago was engaged in farming in the Concord neighborhood, but on account of declining health sold his farm and located in this city, where he acquired considerable property.

Mr. Stubbs was a good citizen in many ways, and will be missed.

Portageville Critic: Before it is too late to correct it, except at a great expense, the city ought to employ a civil engineer and have the sidewalk grade established. The manner in which the concrete walks are being put down, is far worse than if there were no walks. Each property owner is running a walk to suit his fancy, and without regard to the legal line. Some walks are being built with the fence, while the fence may vary 10 or 15 degrees.

According to the notices served to clean up, many people have complied with same by cutting the weeds on their vacant lots. Now, since this work is started, it should not be permitted to stop until all the rank vegetation in the city is destroyed. Keep the ball rolling.

Last Thursday night J. W. Breeze was beaten to death in Caruthersville, with a base ball bat in the hands of Joe Duke. It seems that Duke had no cause for the act. He is now confined in jail.

J. V. Pollock, the contractor and builder, has located in Hayti. He has bought a couple of lots in the Kohn addition, and expects to build in the near future.

ORIGIN OF "YANKEE."

The Bulletin 197, U. S. Geological Survey says: Yankee; this name with various suffixes forms the names of many places in the United States. The name is a corruption of the Massachusetts Indian pronunciation of the word "English" (Yengeese), and was bestowed upon the inhabitants of New England by the people of Virginia when they refused to aid them in a war with the Cherokees, it meaning to them "cowards." After the battle of Bunker Hill the people of New England, having established a reputation for bravery, accepted the name.

The city is still busy serving notices for property owners to put in concrete walks, and the work of putting them in is moving right along. This is one of the best undertakings ever attempted in Hayti, and very little trouble is experienced in getting the people to understand the benefits to be derived from such improvements.

We are glad to note that all the new teachers in our public school are making good impressions upon the patrons and pupils. We earnestly hope that we may find it to our mutual advantage to retain every teacher, not only for another term, but for many terms, because we believe that a teacher who is thoroughly acquainted can do more good than one who must form acquaintance.

D. L. Sorrell, the sorghum king of Pemiscot county, as is his custom, brought to this office a sample of his this year's make Saturday, which we must say was fully in keeping with his unusual high standard of quality and excellence.

Mrs. Monzelle Ballard of Chaffee, who has been visiting her son, J. M. Myers and wife in this city for some time, returned home Sunday.

A new boy was born to Mr. and Mrs. Dixie Reed Friday night, Dr. Crider attending.

A WOMAN SCORNED.

Kennett Democrat: "Hell hath no fury like a woman scorned," was demonstrated, again, this week, when Beulah Binford heard what the vicious young Beattie had said of her. He laid his conviction to her, or rather to his association with her. She pointed to the fact that he had seduced her when a mere child of thirteen years, and made her a mother at fourteen, and then wanted to know if that appeared that she was a bold, designing woman, hounding him, leading him, a man of twenty-four, astray. The girl is the better of the two unfortunates.

WHAT SHE WORE.

We clip the following from one of our exchanges and are at a loss to know just what the ladies wore: "In Paris, France, where the gay society women barely wear enough clothes, especially in summer, to cover that part of her body not already exposed, processions of the fair sex marched in large numbers there, and in other points of France, making demonstrations denouncing the high price of provisions." Perhaps they wore hats.

Joe Foust of Foust attended to business in this city Friday.
